Dear Parent,

We are pleased that more and more people are able to enjoy the benefits of dental insurance coverage. The numbers and types of dental insurance plans is vast. Some plans cover well and some poorly. In that your insurance coverage is an agreement between you and your employer, it is ultimately your responsibility to know what your plan covers and its limitations.

We will be happy to accept assignment of benefits from your insurance carrier provided that you allow us to place any balance not covered by your insurance company on your credit card. This will be done upon receipt of the payment from your insurance carrier. We will accept VISA, Master Card, Discover and American Express for your convenience.

Any insurance balance that remains unpaid after 60 days following treatment will be placed on your charge card. We have found that you (the policyholder) and your employer (the contract holder) will have better results in obtaining reimbursement, as we are only a third party in this relationship.

If you do not have a credit card or do not wish to assign benefits to the office, we will expect payment at the time of service. We will gladly assist you in any way we can so that you may obtain your maximum insurance reimbursement for the treatment provided.

- I choose to have my co-payments, deductibles, and non-covered services billed to my credit card as described above
- I choose to pay at the time of service and have my dental carrier send insurance benefits directly to me
